About EBDC'24 Event

Over the past three seasons, the EBDC event has sparked many innovation and creativity in sustainable transportation. From sleek, aerodynamic frames to cutting-edge battery technology, each season has pushed the boundaries of electric bike design. Participants have showcased their ingenuity, striving to balance performance, efficiency, and style. Judges have been impressed by the diverse range of entries, reflecting a global passion for eco-friendly mobility solutions. As the event evolves, it continues to inspire the next generation of electric bike designers and enthusiasts. SRIT and Mechatronics Motors provides this exciting platform to budding young engineers to exhibit their innovative ideas into reality.
